1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

**Claim 10:**

Line 3, "a plurality of" (first and second occurrence) has been changed to --the differential--;

Line 7, "plurality of" has been changed to --differential--.

**Claim 18:**

Lines 3-4, "a plurality of" (first and second occurrence) has been changed to --the differential--;

Line 7, "plurality of" has been changed to --differential--.

**Claim 19:**

Lines 3-4, "a plurality of" (first and second occurrence) has been changed to --the differential--;

Line 6, "plurality of" has been changed to --differential--;

Line 8, "plurality of" has been changed to --differential--;

Line 13, "plurality of" has been changed to --differential--.

The Examiner's amendment has been made in order to provide antecedent basis for the differential input signals and the differential output signals and to place the application in a condition for allowance.

*Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance: the amendment filed 3/1/2006 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest common mode voltage detection circuit comprises a first and a second resistor elements coupling the differential output signals; and a third resistor element connected in series to an output of said common mode level generator circuit as called for in claims 10, 18 and 19. Therefore, claims 6-7, 10-12, 14-25 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
